Prices in Swiss Francs.

1. Lactantius, Firmianus. Opera. (Including de opificio Dei vel formatione hominis). Per J. Parrhasium castigata. Acc. Chrysostomo expositio. Tertullianus Apologeticus. Etc. Etc. 12, 160 and 22 leaves. With woodcut on the title, the first leaf of text printed in red and black showing a very large woodcut printed also in red and a number of magnificent large and small woodcut initials in the finest Italian Renaissance style. Folio. Vellum. Venice, J. Tacuinus, 1509. Swiss Frs. 95.-  
"Lactantius in his work 'De opificio Dei', has treated the subject in comprehensive fashion in its anatomical, physiological and psychological bearings. Male embryos spring from the right side, female from the left. Development begins, not with the heart, but with the head, as may be seen from observation of embryos of birds" (Neuburger-Playfair). - Beautiful copy of this rare edition.
2. Jenner. - Sacco, Luigi. Osservazioni pratiche sull'uso del vaiuolo vaccino come preservativo del vaiuolo umano. 174 pp. With large folding plate. 8vo. Original wrappers. Padova, 1801. Frs. 55.-  
One of the earliest Italian works on Jenner's great discovery. A few waterstains. - Scarce!
3. Herilacus, P. R. Aquarum natura et facultates: Vinorum et aquarum effectuum invicem comparatorum tractatus. - De arthritide et podagra consilium. 32 leaves, 384 pp., 4 leaves, 128 pp., 12 leaves. 8vo. Old limp vellum. Cologne, Ciotti, 1591. Frs. 36.-  
A little known and rare work on the medical use of water and wine. The second part of the book treats of arthritis and podagra - an early treatise on this subject (128 pp.) Two leaves of the index only missing. - Some waterstains.
4. Levet, A. Observations sur les causes et les accidens de plusieurs accouchemens laborieux. With two plates. 8vo. Calf, gilt back. Paris, 1770. Frs. 14.-

5. P i n a e u s, S. De virginitatis notis, graviditate et partu. L. Bonaciolus: de conformatione foetus. Plater: de origine partium. Gassendi: De septo cordis pervio. 182 pp., 1 leaf, 298 pp., 20 leaves. With engraved frontispiece, 3 peculiar folding plates and cuts in the text, all of embryological interest, and folding tables. 16mo. Original vellum. Leyden, 1641. Frs. 55.-  
Famous work on the anatomical signs of virginity. All copies of this work are rare, several editions having been confiscated. The treatise by Gassendi is a very early contribution to the history of Harvey's discovery.
6. L a n z o n i, J. Tractatus de balsamatione cadaverum. 92 pp., 12 leaves. 12mo. Old calf. Geneva, 1696. Frs. 22.-  
We mention: De balsamatione utilitate et duratione, de mortuorum unctione, de mumia, de recentibus balsamandi cadavera modis, etc.
7. J a m b l i c u s. De mysteriis aegyptiorum, chaldaeorum, assiriorum. Proclus: de sacrificio et magia. Porphyrius: de divinis atque daemonibus. Mercurius Trismegistus: Pimander. 543 leaves. 24mo. Vellum. Lyons, 1577. Frs. 16.-  
Collection of important works on occult **sciences** and alchemy.
8. A b b a t i u s, B. A. De admirabili viperae natura. 8 leaves, 133 pp., 5 leaves. With engraved title, two full page engravings showing the anatomy of vipers and another engraving (medaillon). 4to. Modern half vellum. Nuremberg, 1603. Frs. 36.-  
Very esteemed Italian work on snake-poisons.
9. H i p p o c r a t e s. De victus ratione in morbis acutis, sive de ptisana, una cum Galenii quatuor in eiusdem commentariis. Jo. Vassaeo interprete. Greek and Latin text. 20 and 144 leaves. 8vo. Old vellum. Paris, J. Roigny, 1543. Frs. 38.-  
Choulant, p. 30. Highly appreciated edition with the **Greek-Latin** text and commentary by J. Vassaeus.
10. D i g b y, Sir Kenelm. Discours fait en une celebre assemblée **touchant** la guerison des playes par la poudre de sympathie, ou sa composition est enseignée et plusieurs autres merveilles de la nature sont développées. 160 pp. 12mo. Calf. Paris, 1666. Frs. 35.-  
Caillet 3124. Good French edition of this celebrated discourse which caused quite a sensation at the **time** of its publication.
11. C o t u n n i, Dominico. De ischiade **nervosa** commentarius. 16 and 160 pp. With four full-page plates. Large 8vo. Old vellum. Naples, 1779. Frs. 22.-  
This edition of that well-known work on ischias is augmented by four plates (two of which outline).
12. H o l l e r i u s, J. Omnia opera practica. Acc. I. Le Bon: libri therapia puerperarum. 8 leaves, 584 pp., 317 pp., index. Printer's device. 4to. Vellum. Cologne, 1623. Frs. 14.-  
We mention: De morbis internis; institutiones chirurgicae, etc. The last part treats of obstetrics. - Margins of first leaves waterstained. Stamp on title.

On these already reduced prices we allow

a special discount of 15 %.

13. D o l c e, Lodovico. Trattato delle gemme che produce la natura; nel quale si discorre della qualità, grandezza, bellezza e virtù loro. 98 leaves, 1 leaf. Printer's device. 8vo. Vellum. Venice, Sessa, 1597. Frs. 34.-  
Rare! Deals to a great extent with the medical virtues of precious stones.
14. (On dreams). - A r t e m i d o r u s, D. Dell'interpretatione de sogni. 8 leaves, 294 pp., 1 blank leaf. Printer's device. Small 8vo. Original vellum. Venice, 1547. Frs. 45.-  
This edition is not quoted by Brunet or Caillet. "Artemidorus devoted all his time and thoughts to this science of dreams, and thought his great labour had enabled him to warrant his interpretations by reason and experience" (Bayle, nr.6883). - Some leaves browned. Rare!
15. P i c u s, V. De fungorum creatione. - Dardana, J. A. Ad Picum acta. Two parts. 2 leaves, 283 pp., 32 pp. With two fine, coloured plates showing mushrooms. 8vo. Nice original calf, back gilt. Torino, 1788. Frs. 28.-  
This work on mushrooms is of great medical interest: ex materia medica de fungis; de symptomatibus fungorum **venenatorum**; de ratione medendi iis qui a fungis veneficiis male habent; etc.
16. A s t r u c, J. De morbis venereis libri novem. Acc. tres epistolae, Gerardi van Swieten. 2 vols. 20 leaves, 423 pp.; 464 pp. 4to. Original vellum. Naples, 1768. Frs. 20.-  
With three treatises by Swieten and another tract by Bertini: De uso interno Mercurii.
17. A r i s t o t e l e s. De secretis secretorum, in Italian. Il segreto de'segreti, le moralità e la physiognomia, dove si trattano gli ammaestramenti ch'egli scrisse al magno Alessandro, si per il reggimento dell'imperio, come per la conservazione de la sanità. Fatti volgari per Giovanni Manente. Roman letter. 120 leaves. Woodcut border around the title. Printer's device. Printer's device at the end. Large 8vo. Modern half calf. Venice, Zuan Tacuinus da Trino, 1538. Frs. 95.-  
Very rare edition in Italian !! - "The most popular book of the Middle-Ages" (Gaster). "This work treats of physiology and kingship; the chapters on the ethics of kingly rule appearing between those on health and anatomy. The medical theory of the Secret of Secrets is not of an advanced or complex sort, but it is a combination of curious notions, such as, that life consists of natural heat, and that it is very important to keep the abdomen warm and the bowels moving regularly, that vomiting once the month or oftener is beneficial, etc. Turkish baths are described for perhaps the first time in Europe" (Thorndike, Hist. of Magic and Experimental Science, Vol.II).  
Light waterstains on bottom margins of first leaves. Fine copy.
18. A r g e n t e r i o, J. Pedemontanus. In artem medicinalem Galeni. Two parts. 8 leaves, 762 pp., 2 leaves, 356 pp., index. Thick 8vo. Vellum. Paris, 1578. Frs. 26.-  
Good and copious commentary to Galenus. - Former owner's name on title: "Jul. Boismens, medicus, 1585". - Very fine copy.

19. Alberti, Salomon. Historia plerarumque partium humani corporis, membratim scripta et in usum tyronum retractius edita. 8 leaves, 121 pp., 1 leaf. With three folding plates, 4 full page woodcuts and 23 smaller woodcuts, showing anatomic details. Nice woodcut on the title. Modern vellum. Small 8vo. Wittenberg, Haeredes Johann Cratander, 1585. Frs. 160.-  
Douglass 151. Feyfer p. 41. Choulant-Frank, p. 217.  
Rare !! A very uncommon Vesalianum. Except two figures, all woodcuts illustrating the above work, are of Vesalian origin. "Alberti was recognized as an industrious anatomist and an independent investigator" (Choul.-Frank).
20. Lancisi, G. M. De motu cordis et aneurismatibus, opus posthumum. 2 leaves, 28 and 219 pp. With 8 folding plates. Vignette on the title. 4to. Vellum. Naples, 1738. Frs. 55.-  
"Lancisi notes the frequency of cardiac aneurysm, distinguishes between aneurysma cavities with thin and thick walls, and notes heredity, syphilis, asthma, palpitation, violent emotions, and excesses as prominent causes. He was also the first to describe cardiac syphilis" (Garrison). - Waterstained.
21. Magati, C. De rara medicatione vulnerum seu de vulneribus tractandis libri duo. Acc. de vulneribus tormento bellico inflictis. Two vols. 26 leaves, 596 pp., 28 leaves, 4 leaves, 648 pp., 20 leaves. Quarto. Original vellum. Frankfurt, Leipzig and Amsterdam, 1733. Frs. 34.-  
Both parts are rarely to be found together. "Magati followed Paré in holding that gunshot wounds are not poisonous" (Garrison).
22. Lesser. - Lyonne t. Teologia degli insetti ovvero dimostrazione delle divine perfezioni, in tutto cio che riguarda gl'insetti. Two parts. 4 leaves, 284 pp., 2 leaves, 254 pp. With portrait of Lesser and two folding plates. 8vo. Vellum. Venice, 1751. Frs. 14.-  
Quite an important work in the history of entomology.
23. Marinello, G. Gli ornamenti delle donne (Ornaments of women), tratti dalle scritture d'una Reina Greca. 8 and 319 leaves. With pretty initials; printer's device. Modern half vellum. Venice, 1562. Frs. 60.-  
First edition of one of the earliest works on cosmetics.  
Contains full-accounts of cosmetics for the skin, hairdressing, manicure, pedicure, detailed receipts for dentistry, perfumery, to paint the face, hair-dye, etc. Few slight stains on the lower margins of first and last leaves, but fine copy of this rare work.
24. Petit, J. L. Traité des maladies chirurgicales et des opérations qui leur conviennent. Three vols. With portrait of the author and 90 engraved folding plates showing surgical instruments. Large 8vo. Original half calf. Paris, 1790. Frs. 42.-  
"Petit, the leading French surgeon of the early eighteenth century, was the inventor of the screw tourniquet and gave the first account of softening of bones. He was the first to open the mastoid process" (Garrison).

On these already reduced prices we allow

a special discount of 15%.

33. Matthioli, P. De i discorsi nelli sei libri di Pedacio Dioscoride Anazarbeo della materia medicinale. Two parts in one very stout volume. 84 leaves, 672 pp.; 2 leaves, pp. 673 - 1527, 6 leaves. With full-page portrait of Matthiolo and about 1000 beautiful, nearly full-page woodcuts of plants and animals and 6 very large woodcuts of stills. Printer's device(repeated). Folio. Old vellum. Venice, 1604. Frs. 110.-
- Pritzel 5988. Very esteemed valuable edition with the cuts of the extraordinary size, measuring 150 x 220 mm. - Some leaves very insignificantly browned, but a very fine copy.
34. Pharmacopoeia Augustana, renovata. 8 leaves, 28 pp., 324 pp., 6 leaves, 40 pp. With engraved frontispiece. Folio. Old vellum (damaged). Augsburg, 1710. Frs. 28.-
- Former owner's name on title cancelled.
35. Alpinus, Pr. De praesagienda vita et morte aegrotantium libri septem. Cum praefatione H. Boerhaave. 16 and 286 pp., 1 leaf, 31 pp. With the author's portrait. Venice, 1774. Frs. 12.-
- "Unique treatise on medical prognosis"(Garrison).
36. Montuus, H. Opuscula juvenilia: Viator, sive itinerarium. De abditis centuriae duae. Selectorum sectiones. Exalogi de his quae ad medicum pertinent. De medica theoresi liber. 32, 56, 56, 38 pp., 1 leaf, 122 pp., 1 leaf, 8 leaves. With five nice different woodcut borders round the titles, large coat of arms and remarkable large woodcut initials on criblé ground. 8vo. Modern calf. Lyons, Jo. Tornaesius and G. Gazeius, 1556. Frs. 28.-
- Finely printed from Jean de Tournes' famous press. - Contains also Montuus' well-known work "De disciplinis medico necessariis". A few leaves slightly browned. - Scarce!
37. Agrippa ab Nettesheim, H. De incertitudine et vanitate scientiarum et artium. 4 leaves, leaves 9 - 159, 1 leaf. Printer's device(repeated). Nice original binding of brown calf, richly stamped(back damaged, covers slightly worn). Paris, J. Pierre, 1531. Frs. 110.-
- This work is of great medical interest. It contains on 12 leaves the following medical chapters: "De medicina in genere, de operatrice medicina, de pharmacopolia, de chirurgia, de anatomistica, de veterinaria, de diaetaria, de arte coquinaria". Besides we mention: De physiognomia, de chiromantia, de alcumistica(sic), etc. - Also of most interest as a satirical but true picture of the state of science during the early part of the 16th century, which landed its author in prison. - A few brownstains.
38. Nenter, G. Ph. Fundamenta medicinae theoretica-pratica, secundum celeberrimi StahlII conscripta, in forma tabularum. 10 leaves, 440 pp. With vignette on the title. Folio. Old boards. Venice, 1735. Frs. 16.-
- Contains a.o. several chapters on arthritis; we mention: 'De doloribus arthritico-spasticis; de hermicrania, de malo ischiadico; de podagra; etc. etc.' - A few slight stains.

On these already reduced prices we allow

a special discount of 15 %.

25. (M a t t h i o l i). - Pinaeus. Historia plantarum, earum imagines nomenclaturae qualitates. Acc. Simplicium medicamentorum facultates ex Dioscoride. 640 pp., 229 pp., 13 leaves. With many hundreds of nice, small woodcuts of plants. 24mo. Calf. Lyons, 1561.  
Frs. 45.-  
Pritzel 5994. First edition of this nice pocket edition with commentary of Pinet.
26. P l e n k, J. J. Dottrina de'morbi degli occhi(on eye-diseases). 5 leaves 225 pp., 2 leaves. Small 8vo. Boards. Venice, 1786. Frs. 14.-  
Good edition of this well-known treatise on eye-diseases.
27. G a l e n u s. Ars medica, quae et ars parva. M. Acackia interprete. 24 leaves, 478 pp., 1 leaf. Printers device(repeated). 8vo. Modern half vellum. Venice, 1549. Frs. 22.-
28. B l a s i u s, G. Observationes medicae rariores. Acc. monstri triplici historia. 2 leaves, 120 pp., 2 leaves, 71 pp. With 11 anatomical copper-plates, showing also monsters. Modern half vellum. Amsterdam, 1677. Frs. 18.-  
Without frontispiece, otherwise complete copy.
29. B e r t h o l o n. De l'électricité du corps humain, dans l'état de santé et de maladie. Ouvrage couronné par l'Academie de Lyon. 2 vols. With 6 folding plates. 8vo. Original calf. Paris, 1786. Frs. 12.-  
Contains much about atmospheric electricity and its effect on human system; also applications of positive and negative electricity to the cure of diseases, frictional machines, etc.
30. A r e t a e u s C a p p a d o x. Libri septem, a J. P. Crasso in latinum versi. 8 leaves, 286 pp., 25 leaves. 8vo. Old half vellum. Strassburg, 1768. Frs. 25.-  
Choulant, Handbuch, p. 86. "Aretaeus is the most important source for the teachings of the Pneumatic school. He is easily the most attractive medical author of his time"(Garrison).
31. (On sport). M e r c u r i a l i s, H. De arte gymnastica libri sex, in quibus exercitationum omnium vetustarum genera, loca, modi et quidquid denique ad corporis humani exercitationes pertinet, explicatur. 6 leaves, 308 pp., 14 leaves. With over 20 beautiful full page woodcuts by Chr. Coriolano, representing all kinds of gymnastic exercises, sports, etc. 4to. Original vellum. Venice, Giunta, 1573. Frs. 68.-  
"Mercurialis' De arte gymnastica is the first illustrated book on this subject". The interesting illustrations, important for the history and hygienics, show boxing, wrestling, swimming, dancing, rocking, weight-lifting, discus-casting, climbing gladiatorial fights, a bathing establishment, plans for gymnastics grounds, etc.
32. M e e k' r e n, Jobius a. Observationes medico-chirurgicae in Latinum translatae ab A. Blasio. 8 leaves, 392 pp., 3 leaves. With engraved frontispiece and numerous engravings in the text. 8vo. Calf. Amsterdam, 1682. Frs. 26.-  
Interesting work on monsters, abscesses, etc. with a very great number of various figures showing strange miscarriages, surgical instruments, etc.

On these already reduced prices we allow

a special discount of 15%.

39. P e z o l d, K. Observationes medico-chirurgicae selectiores. 4 leaves, 200 pp. With a few cuts in the text. 8vo. Old calf. Breslau, 1715. Frs. 14.-  
Contains about hundred surgical observations. We mention: "Ophtalmia menstrua post retropulsa ulcera capitis, tubercula faciei diversi coloris menstrua, phytisici anatome" etc. - Browne.
40. (Pharmaceutical). Edicts for taxes for the physicians and pharmacists of the city of Florence. Ripublicazione del bando sopra le matricole, e tasse da pagarsi all'arte dei medici e speciali di Firenze. Broad-sheet. Florence, end of the 17th century. Frs. 22.-
41. (Medical history). - B a l d i n g e r, E. G. Sylloge selectiorum opusculorum argumenti medico-pratici. 6 vols. 8vo. Old calf, gilt back. Göttingen, 1766 - 82. Frs. 18.-  
Baldinger was a celebrated biographer of his contemporaries and wrote many learned essays. This work is of particular interest for the study of medical history.
42. B e r t r a n d i, A. Trattato delle operazioni di chirurgia. 2 vols. 4 leaves, 54 pp., 1 leaf, 263 pp.; 2 leaves, 352 pp. With four folding plates. 8vo. Vellum. Nices, 1763. Frs. 24.-  
First edition. Bertrandi was a celebrated surgeon and anatomist. This is his principal work, containing also some chapters on ophthalmology.
43. (Malpighi. - Bellini). A t t i, G. Notizie edite ed inedite della vita e delle opere di M. Malpighi e di L. Bellini. With portrait of Malpighi. Stout 4to. Half vellum. Bologna, 1847. Frs. 35.-  
Very esteemed biographical and bibliographical work on Malpighi and Bellini.
